About Us

AIG Metalform formally known as, AIG Enterprises. AIG metalforms cater to the sheet metal fabrication industry in the field of retrofitting, service and application for Press Brake and shearing machine.

We specialize in retrofit, repairs of CNC Pressbrake of any Indian or International Brand. We can provide you complete replacement of parts like ESA Automation, Delem Controls. We can also provide tooling and shearing blades. In the last five years we retrofitted approximately more than 100 pressbrake brands like LVD, Trumpf, AMADA, Bydtronic, Gasparoni etc.

CNC Controls

Delem

We provide Delem and ESA Control, Modules as well as related spares part. Also provide the complete solution of Obsolete Controls.

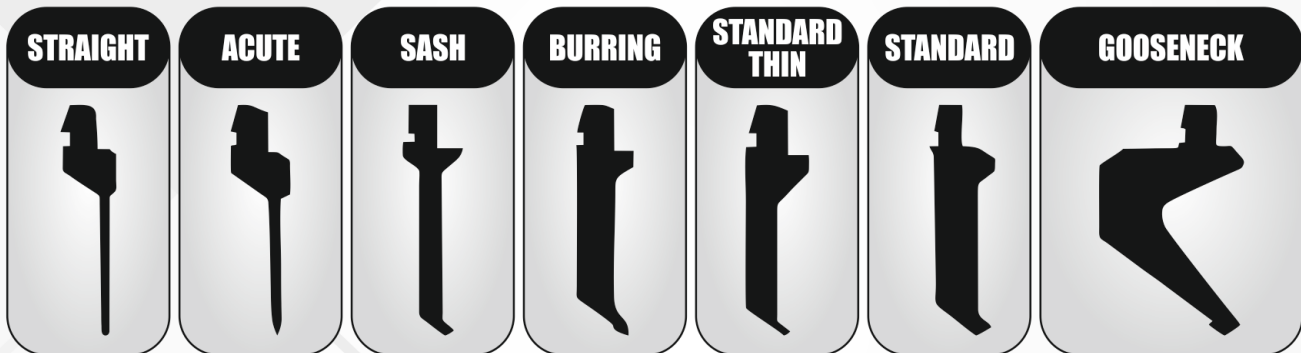

Press Brake Tooling:-

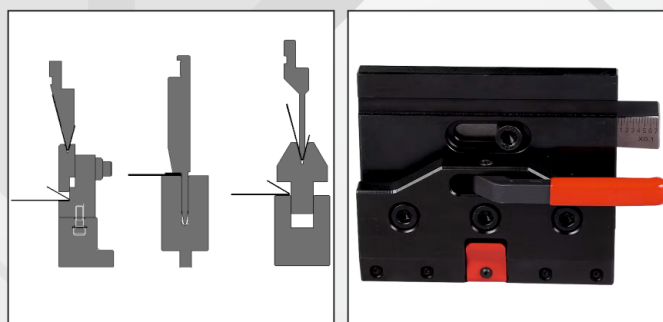

we can provide Tooling as well as all kind of clamping. We also provide the special tooling according to customer application.

All standard tooling is black fire coated and Material of Tools is 42CRMO4 instead of C45.

PUNCH PROFILES

Heming Tools Dies and Adaptors

Servo Drives/Amplifiers/VFD

Complete retrofit solution for all types of servo drives, motors like Schneider, Yaskawa, Delta and Panasonic or another reputed brands.

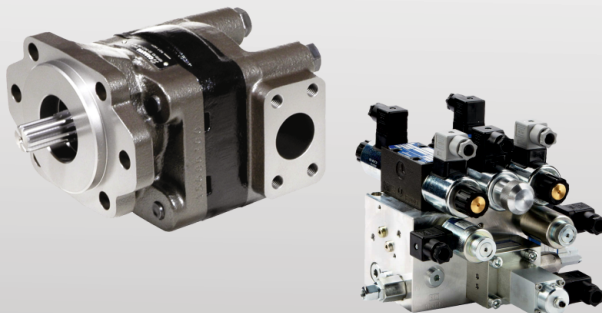

Hydraulics Cylinders and Oil Seals/packings

All major brands of hydraulics seals like simrit, parker, halite are available in stock.

Hydraulics Power Packs

All major brands of hydraulics like Hoerbiger (Hawe), Bosch Rexroth, Atos, Argo, Hytos and Yuken are available with us. We can provide you all kinds of servo valves like directional proportional flow control, as well as Pumps.

Linear scales

Repair and replacements of branded linear scales is available. We can provide all major brands like Heidenhain, GIVI measure & Opkon. Cables and connectors for the scales are also available. Spares parts like readers and linkages can also be made available to save costly replacement.
